```
public class Example implements LoremIpsum {
        public static void main(String[] args) {
            if(args.length < 2) {</pre>
                System.out.println("Lorem ipsum dolor sit amet");
       } // Obscura atque coniuge, per de coniunx
       /**
         * Stream example method.
         */
        public static boolean stream() {
            Stream.of(12, 13, 29, 36, 54)
                .filter(i -> {
13
14
                    return i % 2 == 0;
                })
                .forEach(i -> System.out.println(s));
17
            return true;
19
```
